## PRODUCT DESCRIPTION

**Designer:** Bernhard Osann

### Nemo Lighting Fox LED Wall Light

The Nemo Lighting Fox Wall Light combines sculptural aesthetics with innovative functionality. Its large, arching form is a practical alternative to a pendant, providing functional overhead lighting. With a tiltable frame and spotlight, the fixture can easily be adjusted to direct light precisely where required. The cylindrical spotlight houses a honeycomb filter, diffusing light into a comfortable glow.

The Fox Wall Light is available in four finishes: black, white, titan grey, and gold. These bold colourways complement the fixture's contemporary aesthetic, suiting modern interiors in both residential and commercial environments. Ideal beside a desk, bed, table, or sofa, the Fox Wall Light provides practical illumination wherever it's needed. Pair it with the **Fox Floor Lamp** for an impressive installation that makes a statement without overwhelming the space.
