PRODUCT DESCRIPTION

Designer: SkLO

SkLO Lighting Perla Profile 5 Pendant

The SkLO Lighting Perla is a highly decorative pendant, characterised by its glass diffuser and ornate brass detailing. Each glass sphere, available in pastel green, white, and light beige, is expertly mouth-blown using traditional Czech techniques. The hand-crafted nature of the glass means that subtle variations may occur, making each piece unique. The ornamental metal profile complements the delicacy of the glass, adding to the pendant's decorative aesthetic. With five metal profiles and five finishes to choose from, users can create a pendant that perfectly suits their interior.

With its curving lines and subtle details, the Perla Pendant is well suited to spaces that call for a decorative touch. When illuminated, the opaque glass casts a soft hue of light, perfect for adding an ambient glow to bedrooms, dining rooms, and living areas. Although effective when installed individually, the Perla pendant creates a particularly striking display when grouped in multiples in different finishes and profiles and suspended at varying heights.

Please note, the images show the Perla Profile 5. Four additional profiles are available; see specifications for details.

The Perla Pendant includes SkLO's field-adjustable Standard Stem Kit. A field-adjustable Extended Stem Kit is available at an additional cost. See specifications for kit details. Please contact us for more information and pricing.

PRODUCT SPECIFICATION

Light Source:	1 x Max 7W G9 LED (Included)
