PRODUCT DESCRIPTION

Designer: Tom Dixon

Tom Dixon Press Surface LED Light

The Press Surface light is a stunning wall light that can be used in both the outdoors, bathrooms and wet areas thanks to its handy IP 55 rating. The lampshade is made from clear glass that is created by dropping molten glass and pressing it in iron moulds with high pressure and at 1200°C. The light source sits in the middle and is spread outwards, casting beautiful circular lines due to the glass ripples.

The Press Surface is the perfect solution to many settings, being durable and versatile enough to apply anywhere. It includes three different coloured metal dome caps - silver, gold and black. Whether you need a handy light on your patio, to line your corridor or an ambient bathroom light, this wall lamp is a wonderful choice and will add a touch of class to any space.

The Press Surface Light is fitted with a silver metal dome cap, with easily attachable/removable gold and black caps in the box.

Please Note: This LED Wall Light comes as 2700K as standard, but a 3000K LED ring offering a brighter glow can be purchased separately. Please [Contact Us](#) for more information and pricing.
