PRODUCT DESCRIPTION

Designer: Muller Van Severen

HAY Arcs Table Lamp

The HAY Arcs Table Lamp was designed by Belgian artist duo Fien Muller and Hannes Van Severen in 2021. Drawing on their passion for architecture and materials, their designs sit somewhere between design and art. This award winning duo are constantly seeking new ways to present the natural beauty of the materials they use. The Arc Desk Lamp is composed of steel which forms a continuous chain of curved arches that form a single element. This bold lamp shade uses the unique shape of the shade to play with light whilst also producing a soft, ambient glow into the surroundings.

This durable modern table lamp is available in four different finishes, which are Auburn Red, Sea Green, Cobalt Blue and Mirror. These vibrant finishes beautifully reflect the natural light off their glossy finishes. Perfect for a desk space, office or bedside table, the HAY Arcs Table Lamp is a sleek playful design that will bring colour to any interior.
