PRODUCT DESCRIPTION

Designer: SkLO

SkLO Crown Chandelier

The Crown Chandelier by SkLO is a substantial piece that adds a sculptural statement to interiors. Its generous form comprises of eight glass cylinders suspended around a large central cylinder. A brass dome encapsulates the glass, enhancing the chandelier's strong geometric profile. Handcrafted using Czech glass, the opaque shades are available in multiple combinations: Pastel Green/ Pine Tree Green, Light Beige/ Olivin, and White/ Smoke frosted glass. The metal dome is available in Antique Brass, Brushed Brass, Brushed Nickel, Dark Oxidised, and Polished Nickel, allowing you to create a luminaire that perfectly suits your interior.

The Crown's impressive form adds a decorative element to rooms, even when not in use. When illuminated, the opaque glass diffuses light into a soft hue, adding to the Crown's decorative presence while filling the room with a warm and welcoming ambience. Casting a gentle downlight, the Crown is perfect for illuminating a dining table or coffee table. Display a single piece above a table for an elegant focal point or, in spaces with high ceilings or in stairwells, create cascading compositions by installing multiple chandeliers at varying heights. Due to the handcrafted nature of the glass, subtle variations may occur, giving each piece a unique character.

The Crown Chandelier includes SkLO's field-adjustable Standard Stem Kit. A field-adjustable Extended Stem Kit is available at an additional cost. See specifications for kit details. Please contact us for more information and pricing.
