SkLO Crown Pendant

The SkLO Crown Pendant contrasts brass with opaque, hand-blown glass, resulting in a striking luminaire with a sculptural presence. The four cylindrical shapes, crafted from Czech glass, are subtly curved to echo the dome's profile for a clear and cohesive silhouette. The glass is available in Light Beige, Pastel Green, and White, while the metal is available in a choice of Antique Brass, Brushed Brass, Brushed Nickel, Dark Oxidised, and Polished Nickel. Due to the handcrafted nature of the glass, subtle variations will occur, ensuring each piece has a unique character.

With two lengths available, the Crown Pendant fits a range of spaces. Install individually or in clusters of alternating sizes for a sculptural focal point in dining rooms, bedrooms and living areas. The gentle spread of light created by the pendant is perfectly suited to spaces that call for a soft and welcoming ambience.

The Crown Pendant includes SkLO's field-adjustable Standard Stem Kit. A field-adjustable Extended Stem Kit is available at an additional cost. See specifications for kit details. Please contact us for more information and pricing.
