PRODUCT DESCRIPTION

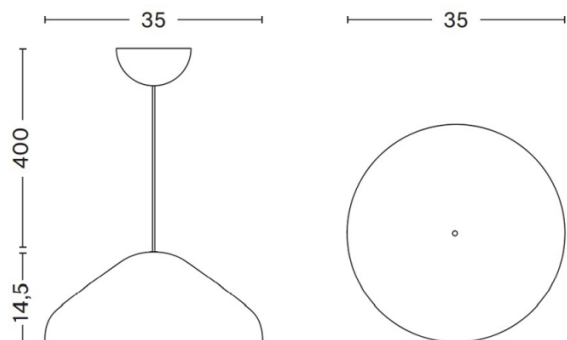

Designer: Naoto Fukasawa

HAY Pao Glass Pendant

The HAY Pao Glass Pendant light was designed by Japanese designer Naoto Fukasawa who created the [Pao collection](#) after being inspired by the nomadic traditional Mongolian Pao tents that illuminated at night time. This soft glowing ceiling lamp is a reflection of the homely warmth of the Pao tents which emitted an inspirational ambient light. The beautiful simplicity of the Pao Glass Pendant light was a deliberate choice by the designer due to his primary intention of making the atmosphere pleasant and comfortable.

The 'homely' glow created by this lamp is due to the custom LED light source and diffuser that is nestled within the opal glass shade. Each shade of opal glass is individually mouth blown and delicately made to perfectly diffuse the light and create a soft glossy exterior. This ceiling lamp is the perfect addition to a wide range of spaces as it emits a calming atmosphere.
