PRODUCT DESCRIPTION

Skot Outdoor LED Ceiling and Wall Light by Louis Poulsen

The Skot outdoor ceiling and wall light dates back to the early 1900s where it was developed by designer Lauritz Knudsen. Created specifically for vessels and maritime spaces, the Skot light has since enjoyed success in a wide variety of settings for useful and effective illumination.

The Skot outdoor wall/ceiling lamp comes in two colour finishes, aluminium or graphite grey and is characterised by its cross pattern. The diffuser also comes in a variety of finishes, with the choice between an opal, clear, half shaded opal or half shaded clear diffuser. Each diffuser gives off its own specific glow and lumen output, so you can find the right look for your exterior.

The Skot outdoor lamp is also available with a 4000K colour temperature and the half shaded options can only be installed on the wall. Please [contact us](#) for more information and prices.

PRODUCT SPECIFICATION

Light Source: 6.5W, 3000K, 522 Lumens

IP Code: 66

Dimming: Non-dimmable.

Dimensions: Ø23.9cm
