SkLO Oestre Profile 4 Pendant

The SkLO Oestre Pendant is characterised by its curved silhouette. Using traditional Czech production techniques, glass is expertly blown into a double-ellipsoid form for an understated elegance. The shade pairs with a metal stem, featuring ornamental detailing at the base that complements the pendant's decorative presence. The glass is available in Light Beige, Pastel Green, and White colourways, while the metal is available in Antique Brass, Brushed Brass, Dark Oxidised, Brushed Nickel, and Polished Nickel finishes. Five metal profile options offer further customisation, allowing you to tailor the pendant to your decor.

When switched on, the opaque glass casts a soft glow, adding a comfortable ambience to the surrounding space. The opening at the base of the shade casts a downward-directed glow, perfect for illuminating tables in a dining room or living area. A single pendant makes a subtle statement, while a cluster, combining different colourways and profiles, creates a distinctive decorative focal point. Due to the hand-blown glass production, natural variations in colour, thickness, and shape may occur. This is part of SkLO's design intent and celebrates the unique nature of handcrafted pieces.

Please note, the images show the Oestre Profile 4. Four additional profiles are available; see specification image for details.

The Elizabeth 2 Pendant includes SkLO's field-adjustable Standard Stem Kit. A field-adjustable Extended Stem Kit is available at an additional cost. See specifications for kit details. Please contact us for more information and pricing.

PRODUCT SPECIFICATION

Light Source:	1 x Max 7W G9 LED (Included)
