PRODUCT DESCRIPTION

Designer: SkLO

SkLO Prince Profile 2 Pendant

The SkLO Prince Pendant is crafted by expertly layering glass of different shapes, colours, and transparencies, resulting in a captivating pendant that adds a decorative touch to any interior. The curved, transparent outer shade encapsulates the opaque cylindrical diffuser, both formed from hand-blown glass. The metal stem adds to the decorative appearance of the pendant. Available in a choice of five luxurious finishes, the stem transitions into an ornate metal profile for a striking yet modest effect. With a choice of Light Beige/ Olivin, Pastel Green/ Pine Tree Green, and White/ Smoke glass finishes, the pendant can be easily modified to suit any interior.

The Prince Pendant suits spaces that call for ambient lighting with a decorative touch. An opening at the bottom of the inner diffuser casts a downward-directed light, perfect for use above dining tables, kitchen islands, and coffee tables. As each glass shade is hand-blown, subtle variations in colour, shape, and thickness may occur. This is part of SkLO's design intent and celebrates the beauty of handblown glass.

Please note, the images show the Prince Profile 2. Four additional profiles are available; see specification image for details.

The Prince Pendant includes SkLO's field-adjustable Standard Stem Kit. A field-adjustable Extended Stem Kit is available at an additional cost. See specifications for kit details. Please contact us for more information and pricing.

PRODUCT SPECIFICATION

Light Source:	1 x Max 7W G9 LED (Included)
