PRODUCT DESCRIPTION

Designer: Paola Navone

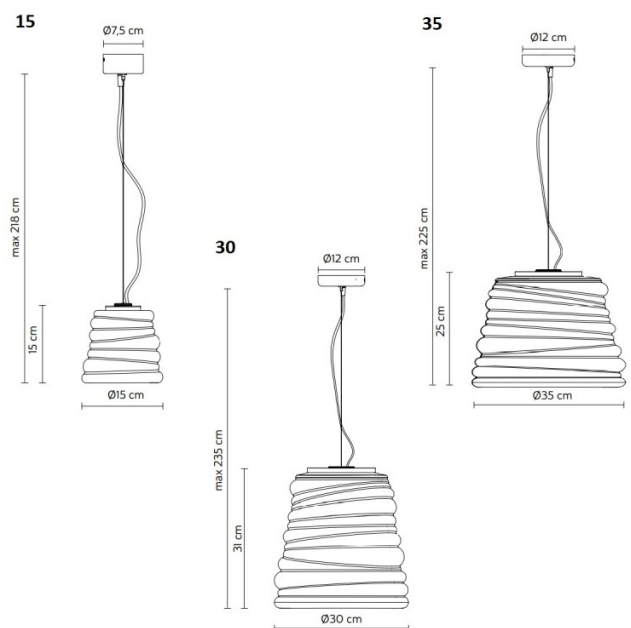

Karman Bibendum LED Pendant Light

The Bibendum LED pendant was designed by Paola Navone who describes the collection of glass pendant lights as a 'trick of lighting magic'. The handcrafted shades of each lamp diffuse the light into the surroundings creating a unique pattern of reflections in the space. The designer described this lamp as a '*fun object, capable of making everyday life a little bit special*'.

Available in multiple sizes, finishes, and colour temperatures, this lamp will easily suit any interior. The transparent finish morphs the light around the unique design and almost appears water-like. Whereas the white frosted finish creates a more minimalist simplistic design that emits a warm, ambient, diffused light. These LED Karman pendant lights would be a stunning addition to your space as an individual piece or as a cluster of different sizes.

PRODUCT SPECIFICATION

Light Source:	15 5W, 2700K, 500 lumens or 5W, 3000K, 500 lumens
