PRODUCT DESCRIPTION

Designer: Neri&Hu

Parachilna Bai LED Chandelier

The Bai Chandelier was designed by internationally renowned architects Neri&Hu based in Shanghai. The Chinese-inspired lantern shades are a vision of sophistication and tradition that has stood the test of time. The hand-blown shades are meticulously designed to embody the humble luxury that Parachilna prides itself on. They believe that every hand-made product that they produce is imprinted with the skill and devotion of the individuals that create them.

This is clear within the Bai LED chandelier that is available in two sizes and three colour options. The body of the lamp remains a luxurious-looking bronze, however, the shade diffusers can come in amber, grey, or transparent glass. This variety gives you the choice to customise your Parachilna Bai chandelier to suit any interior. Ideal for over a dining table, through a hallway, or for a commercial space.
