PRODUCT DESCRIPTION

Designer: Mario Alessiani

Axolight Float LED Portable Table Lamp

The Axolight Float LED Table Lamp is a portable lighting solution, featuring the iconic rounded Float lamp head and a slender metal structure. The head of the lamp is removable, allowing the structure to be easily charged when required. An included cable and hook offer versatility to the lamp, allowing users to suspend the lamp head from a wall or ceiling. Thanks to a central hole, the lamp head can also be placed freely on any bottle to create a cosy and intimate atmosphere.

The integrated LED light source projects light downwards, creating a halo-like glow on the surface below. This warm lighting is perfect for illuminating dining spaces, both indoors and outdoors. A 5-step touch dimmer allows you to easily adjust the lighting output to create your desired ambience. Float offers over 9 hours of light, depending on brightness intensity, and can be fully charged within 4 hours via a standard USB cable. The battery of the Float lights is replaceable. While it provides over 500 cycles of battery life, you can replace the battery at the end of its life cycle.

The Axolight Float Portable Table Lamp is available in 15 finishes, including Yellow, Red, Green, Brown, and Grey. Contact us for more information.
