Strand Open Pendants by Muuto

Strand Open Pendants are available in three sizes. These versatile pendants look stunning in a cluster of the same or varying sizes. They are also perfect displayed individually over a dining table or in a living room or bedroom.

The semi-transparent shades provide a soft diffused light in addition to direct upward and downward light through the small opening at the top and larger opening at the bottom of the pendant. The larger opening at the bottom, makes this version of the pendant ideal for use over a kitchen island or dining table due to the larger amount of downward light it provides.

The Strand shades are made from a steel frame covered with a polymer cocoon resin outer layer which contains fine but visible strands (from which the pendants gain their name).
