Designer: Sofie Refer

Apiales Chandelier Light by Nuura

Inspired by flowers, the Apiales chandelier was created by Sofie Refer, a Danish lighting designer who was one of the founding directors of the Nordic brand Nuura. The chandelier light is made up of a metal structure which branches out to hold spherical glass orbs, emulating what we see in nature. Each globe holds a light bulb creating an effective illumination, perfect for use as a main or central light.

The Apiales chandelier lamp comes in three versions, the Apiales 6 which has 6 shades, the Apiales 9 which has 9 shades and the Apiales 18 which has 18 shades. The chandelier also comes in either a brushed brass or satin black structure with either opal white lampshades or colour matched optic glass shades. The opal white finish creates a more diffused, traditional look whereas the optic glass has a flowering expression, exposing the light source for a more contemporary look. Wonderful in homes and professional spaces the possibilities of the Apiales chandelier light are endless!
