PRODUCT DESCRIPTION

Designer: Federico Palazzari

Nemo Lighting Ellisse Double LED Pendant

The Nemo Lighting Ellisse Double Pendant, designed by Federico Palazzari, combines two large aluminium rings with integrated LED technology for a sleek, contemporary design. Available in white, black, or painted gold, its clean lines and elliptical forms create a distinctive composition that brings a sculptural presence to residential and commercial interiors.

The Ellisse Double Pendant discreetly houses its LEDs within the structure, maintaining a seamless and slender profile. When illuminated, opal diffusers soften the light for a comfortable, glare-free glow. The smaller inner ring provides ambient uplighting while the outer ring casts a direct downward light. This combination of ambient and functional lighting makes the Ellisse Double Pendant well-suited for use above a dining table or work surface.

The Ellisse Double Pendant is also available with TRIAC, 1-10v, or Casambi dimming. Please contact us for more information and pricing.
