PRODUCT DESCRIPTION

Designer: Pierre Sindre

Orsjo Belysning Visir LED Wall Light

Pierre Sindre, the designer of the Visir wall light by Orsjo Belysning describes his work as 'a look back in history and a homage to the oil lamps of the 19th century'. By keeping in mind this classic aesthetic and combining it with a modern style and technology such as integrated LED, the Visir wall light is the perfect balance of the old and the new. The stunning metallic finishes of copper and brass beautifully reflect the light towards the wall and creates a stunning display of light and shadow. The copper and brass and add a touch of luxury to your space whilst the monochrome black and white finishes bring a stylish modern twist to the design.

Ideal for placement in a hallway or living space, the ambient indirect light brings a glare-free ambiance to your interior that creates a calming atmosphere.
