Bert Frank Arbor Wall Light

The Bert Frank Arbor Wall Light showcases a striking vertical composition of clear acrylic rods and precision-machined brass, blending Deco-inspired geometry with contemporary sophistication. Ideal for adding visual rhythm and glamour to walls, its tall linear form recalls the elegance of 1930s skyscraper architecture while offering a more intimate, warm light than glass could achieve. Designed to evoke the grandeur of a bygone era, Arbor pairs visual richness with a softened illumination that flatters modern and traditional interiors alike.

Manufactured in Bert Frank's Birmingham workshop, the Arbor Wall Light is supplied with a metal mounting bracket and offers optional J-box compatibility. The use of acrylic rods ensures a diffused ambient glow, warming the light output for a more atmospheric effect. With its refined materiality and architectural lines, this wall light is well suited to use in hallways, staircases, hospitality settings, or flanking mirrors and headboards in bedrooms. Whether installed alone or in multiples, the Arbor Wall Light brings decorative impact and a layered quality to ambient lighting schemes.

PRODUCT SPECIFICATION

Light Source: 1 x Max 20W E27 LED (Included)

IP Code: 20

Dimming: Non-Dimmable.

Dimensions: Height: 81cm
Width: 16cm
Depth: 15cm
