Vibia Asia LED Suspension Light

Vibia Asia LED Suspension Light combines balance and precision in a lacquered glass pendant with a pitched-roof form that filters light from within. The tilted shade gives the pendant a more directional quality, sending light towards the surface below while keeping the output soft and diffused.

The Vibia Asia LED Suspension Light is available in three lengths, so the fitting can be scaled to suit the surface it is lighting. The shortest version works well over smaller tables or counters, the medium length suits dining tables and workspaces, and the longest version gives a wider run of light for kitchen islands, meeting tables, and longer commercial surfaces. It can be used as a single pendant where one focused point of light is needed, or repeated in a line for a more continuous arrangement.

The 2700K LED source gives Asia a warm light, while the lacquered glass shade softens the output and gives the pendant its translucent appearance. Available in Black, Warm White, and Beige finishes. Most suited to dining tables, kitchen islands, counters, workstations, and meeting areas.

Please note, this product comes with a surface-mounted electrical connection as standard. Built-in and Remote Micro options are available. Contact us for pricing and information.

PRODUCT SPECIFICATION

Light Source:
Small (3625): 5.6W, 2700K, 553 Lumens
Medium (3627): 12W, 2700K, 1185 Lumens
Large (3630): 18.4W, 2700K, 1817 Lumens

IP Code: 20

Dimming: 1-10V, Push. DALI & Casambi dimming optional upon request.

Dimensions:

Small (3625):
Height: 9cm
Width: 45cm

Medium (3627):
Height: 9cm
Width: 85cm

Large (3630):
Height: 9cm
Width: 125cm

Surface Connection (3625):
Width: 5.8cm
Height: 5.8cm
Length: 21.5cm

Surface Connection (3627, 3630):
Width: 5.8cm
Height: 5.8cm
Length: 27cm

Cable Length: 300cm (Max)
