PRODUCT DESCRIPTION

Designer: Chris Basias

KDLN Flow Suspension

Designed by Chris Basias for KDLN, the Flow suspension takes the organic shape of leaves; as if floating mid-air. Basias takes inspiration from his childhood in the Greek countryside, and his designs display hints of playfulness and eccentricity. The Flow suspension can be installed as a standalone, or use multiple suspensions to create a stunning installation. You can choose to have the Flow light or the Flow Leaf, which acts as a decorative piece with both the suspension and the ceiling light. Flow is like leaves, made of a metallic disk, reproducing nature on a windy day. The glass sphere, adds to the organic design of the Flow and emits a warm and downward diffused light.

The Flow can be installed on a surface or recessed (fake ceiling) canopy, and there is also the option of a multiple canopy. Multiple canopies can take up to 8 lights, and the decentralisers are included. For more information and pricing please [contact us](#).

PRODUCT SPECIFICATION

Light Source: 1 x Max 25W G9 (excluded)

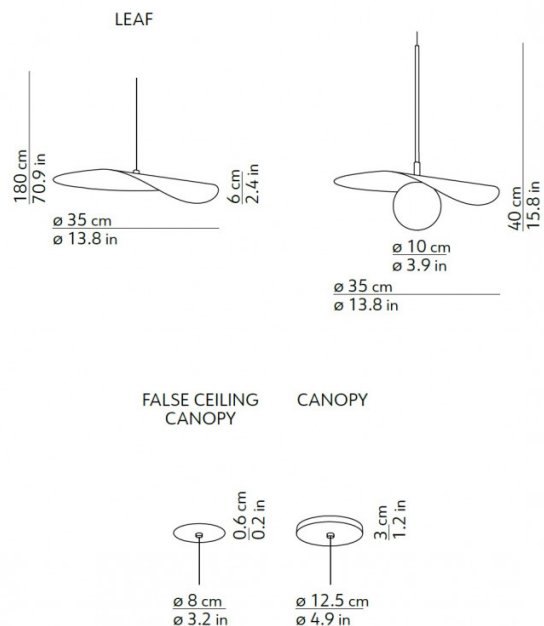

IP Code: 20

Dimming: Dimmable via mains phase dimming.

Dimensions: **Suspension**
Ø35cm
Height: 40cm
Diffuser: Ø10cm

Leaf
Ø35cm
Height: 6cm

Surface Canopy: Ø12.5cm x 3cm
or
Recessed Canopy: Ø8cm x 0.6 cm
