PRODUCT DESCRIPTION

Designer: Poul Henningsen

PH 3/2 Limited Edition Table Lamp by Louis Poulsen

This Limited Edition PH 3/2 Table lamp was based on the iconic PH 3/2 design by Poul Henningson. This elegant table lamp features a reflective three-shade system, the top shade is brass with a white inner reflector that provides a delicate glare-free downlight ideal for lighting your desk space or bedside table. The two lower shades are a beautiful contrast with the brass top shade as they are made of three-layered mouth-blown opal glass that have been specially made to have a glossy finish on top and sandblasted matt underneath. These two opal shades provide a softer, more uniform light distribution to create further ambience.

Both the glass and the brass will have unique natural imperfections that make each lamp an individual of its own. Louis Poulsen encourage you to cherish the small bubbles in the opal glass and the uncoated brass with its hairlines that follow the shape of the shade. Another feature of the material that the brand wish you to embrace and cherish is the way the brass will naturally patina over time if left unpolished. This is a common trend in some of the most iconic Louis Poulsen designs.

Small additions and features have been added to this lamp to make it a special addition to your home. A feature such as the engraving of the P.H initials under the light socket on the lamp. Etched into the brass this lettering is the signature of the designer and is an example of the fine details that make up this stunning design. The 'go-through' switch on the lamp is another example of this and makes reference to the lamps retro past.

PRODUCT SPECIFICATION

Light Source: 1 x Max 5.5W E14 LED (excluded)

IP Code: 20

Dimming: Integrated on/off switch on the product.

Dimensions: Height: 46.5cm
Shade: 29cm
Base: Ø15.5cm
Cable Length: 280cm
