Moooi Set Up Shades Floor Lamp

Where complexity and simplicity meet, the Set Up Shades were created. Designed by one of Moooi's co-founders, Marcel Wanders, the floor lamps are a true example of his creativity. Exploring the limits of type and form, Wanders took an archetypal shape, the conical shade, and stacked them on top of each other. The entire construction is a solid, unified piece and is available in three models featuring 5, 6 or 7 shades.

The Set Up Shades are non-dimmable and can be switched on and off by an inline switch on the cable. Equipped with an integrated LED source, the lamps are energy efficient and emit a warm ambience in every direction. Display beside a sofa or in a dining room to create a cosy and comfortable atmosphere. In commercial environments, the Set Up Shades blend seamlessly into contemporary hospitality settings such as hotel lobbies or bars.
