The Kori Floor Lamp boasts a form that is reminiscent of a lighthouse, with a striking but slender frame. Kori means 'basket' in Finnish, which is a direct reference to the shape of this lamp's diffuser - specifically designed to provide you with both direct and indirect light. The Kori basket diffuser casts a narrow cone of warm light upwards, while also emitting a wider cone of softer indirect light below. This contemporary design takes up little space in your environment, whilst still having a large impact, the Kori Floor lamp effortlessly combines style with functionality.

Designed by TAF Studio, this floor lamp utilises high quality materials and adds a touch of modern sophistication to any room. Kori makes an excellent accent light and can perfectly fit next to your sofa or armchair for a cosy reading light. In commercial spaces, the Kori Floor Lamp can be a gorgeous addition to libraries, shopping centres, restaurants and cafes.
