PRODUCT DESCRIPTION

Designer: Ferruccio Laviani

Kartell Kabuki Outdoor LED Floor Lamp

The outdoor alternative to the original **Kabuki Floor Lamp**. Identical to its indoor cousin in all but IP Rating, Kartell have once again used their ever-evolving injection-moulding technology to create the distinct lace-like diffuser that is the signature of the **Collection**.

Designer Ferruccio Laviani is known for combining modern and baroque design elements to produce versatile lights which fit just as well into any setting, and this lamp is no different. Its curved, ethereal, almost anthropomorphic shape and intricate, embroidered texture contrast with the state-of-the-art construction process required to create it, ensuring that it is the ideal feature lamp for both classical and contemporary environments, while its integrated LED light source is fully dimmable and produces a warm, ambient glow which is perfect for illuminating any outdoor space, including pool areas, gardens, and restaurant or hotel exteriors.
