PRODUCT DESCRIPTION

Designer: Lars Beller Fjetland

Normann Copenhagen Bell Pendant

The Normann Copenhagen Bell Pendant was designed by Andreas Lund and Jacob Rudbeck. This luminaire provides soft downlighting and can sit perfectly above your dining table, side table or workspace. For the Bell Pendant Lund and Rudbeck paid special attention to the smaller details, especially when it came to the silhouette and the connecting point of the cable and the shade. The use of aluminium for the shade produces a clean and minimalistic design, with subtle curved edges adding an organic touch to interiors.

Available in four neutral colours and four sizes, the Normann Copenhagen Bell Pendant has a robust shape with an industrial element and is perfect for use in residential or professional settings. The colour options include black, white, grey and sand - all of which can be displayed individually or in multiples. beautiful way to create functional ambient lighting for dining rooms, kitchens, living rooms and even bedrooms.
