PRODUCT DESCRIPTION

Designer: Norm Architects

Audo Copenhagen Hashira Floor Lamp

A design by Norm Architects for Audo Copenhagen, the Hashira Floor Lamp boasts a cylindrical body, a metal frame and a fabric shade. Drawing inspiration from Japandi design, and specifically Japanese rice paper lanterns, this floor lamp is perfect for your home, office or any other space environment. The linen diffuser not only projects the light, but it also creates a warm and cosy environment. The illumination can also be easily controlled via a dimmer switch on the cable.

The Audo Copenhagen Hashira Floor Lamp can also create a perceptible appeal, which enforces the softness of a room and interior. The lamp's effect is such that it can even influence the room's acoustics and appearance. A beautiful way to generate a warm and inviting ambience in your interior.
