Le Klint Facet Pendant

Le Klint Facet Pendant was designed by Aurélien Barbry, a French designer who now lives in Copenhagen and New York. He emphasizes that he's proud to have found a sophisticated form that references Le Klint's minimalistic pleats without disrupting the structure.

The Facet Pendant is a bold yet simple form made from aluminium. The shade allows light to be directed through the top and the bottom creating upward and downward lighting. The Facet Pendant is available in a matte white and matte black colourways. The Facet Pendant looks beautiful in a kitchen above an island or worktop as it creates a soft downward light.
