PRODUCT DESCRIPTION

Designer: Ludovica & Roberto Palomba

Artemide Arrival LED Ceiling Light App Compatible

Designed by Ludovica + Roberto Palomba, the Arrival Ceiling Light is a modern and contemporary light fixture that is part of the Artemide Arrival collection. This contemporary ceiling light is crafted from metal in a sleek gold finish, with an integrated LED light source that sits on the inside of the silhouette for a diffused glow. The light can also be controlled via the Artemide app, allowing you to easily dim the illumination very specifically to your needs from your phone.

The Artemide Arrival Ceiling Light is characterised by three branches which weave and wind to create a beautiful, sculptural aesthetic. The light is available in 2 sizes, the smaller 70 and the larger 130, so you can find the right fit for your space. Use effectively alone for a small room or use in multiples for larger interiors. You can also match with other lights from the range for a consistent design scheme.

Please Note: The Artemide Arrival Ceiling Light is also available in a black finish. Please contact us for more information and pricing.
