PRODUCT DESCRIPTION

Designer: Paolo Rizzatto

Luceplan Costanza Grande Suspension

It has now been over thirty years since the Costanza range was first designed by Paolo Rizzatto, it has run through different styles and eras without changing, always appropriate, up-to-date and elegant. So it makes sense that the Grande range became a new addition to the family.

To celebrate its enduring success, Luceplan is now introducing new proportions to convey the success of the Costanza range. The same materials and the same technology are used, unmistakable signs of avant-garde design. Grande Costanza is poised between visibility and delicacy, boasting a simple yet stark stature. Its light is warm and atmospheric, suitable for private and public interiors alike.

The Grande suspension is easily adjustable to fit the needs of your space and can be adjusted up and down between 100cm and 475cm. It makes a great centre piece, and conversation starter, above your dining table, in a hallway or even above a coffee table.
