PRODUCT DESCRIPTION

Designer: Joan Gaspar

Marset Aura Dimmable Wall Light

**Brand New, boxed in original packaging.
3 x Translucent available.**

The Marset Aura LED Wall Lamp was designed by Joan Gaspar after being inspired by the way light and glass interact with one another. The opalescent, transparent, or coloured glass of the lampshade allows the light to bathe the wall with a beautifully soft diffused light. The design of the Aura wall light is highly decorative and is just as stunning when turned off as it is turned on. This design is described as being emotional as well as rational and contemporary as the delicate glass shade is illuminated with an integrated LED light source.

The designer, Joan Gaspar, prides himself on simplicity within his designs and aims to design products that are unobtrusive, timeless and artful. Available in four finishes, which are Translucent, Opal, Transparent smoked, and copper. The unique way in which the light plays with reflection through the coloured glass creates a luminescent display on the wall, this would be a perfect addition to a hallway, staircase or dining space and would add a touch of simplicity and beauty to any interior.

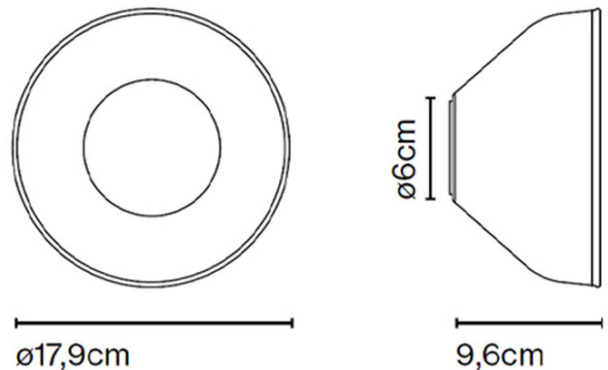

PRODUCT SPECIFICATION

Light Source: 10W, 2700K, 1150 Lumens
