PRODUCT DESCRIPTION

Designer: Broberg & Ridderstråle

Pholc Apollo Wall Light

Pholc Apollo Wall Light was created by Stockholm designers, Broberg & Ridderstråle in 2018. The creative pair aim to add emotional significance to their designs. Their inspiration was drawn from everyday life, a rational approach, and a pinch of wit. Apollo Wall Light has a distinctive character due to its conical-shaped shade that blends into the wall arm, providing a sleek geometric profile.

Apollo Wall Light can be displayed independently or arranged in a cluster at varying heights for a striking visual ensemble. An excellent choice for commercial settings such as galleries, a hotel lobby or hallways. Apollo Wall light can also be featured beautifully in any residential home. Thoughtfully designed, the Apollo wall light can be directed upwards or downwards. [Pholc Apollo collection](#) consists of two different shaped pendants, a wall light and a floor lamp.
