PRODUCT DESCRIPTION

Designer: Hopf & Wortmann

KDLN Atomium Wall/Ceiling Light

The Atomium collection was designed by Hopf and Wortmann, a design duo who met at design school in Munich and decided to set up a studio together in 1999. The collaboration between the two designers resulted in the Atomium collection. This KDLN wall light is described as 'exploring the structure of matter and translates the atom into an astonishing luminous body'. Formed using rotation molding of the polyethylene diffuser and fixed to a laser-shaped coated base, the Atomium wall/ceiling light is a decorative and functional object that diffuses a multidirectional and atmospheric light.

Ideal for use on both ceiling or wall and would be a stunning addition to a modern interior. Emitting a bright and generous light, the Atomium wall light would be an exciting fixture in any space. Pair this KDLN wall/ceiling light with the rest of the [Atomium collection](#) which includes a floor/table lamp and a pendant light.

PRODUCT SPECIFICATION

Light Source: 3 x Max 40W E14 (excluded)**IP Code:** 20**Dimming:** Dimmable via mains phase dimming.**Dimensions:** Depth: 30cm
Height: 52cm
Wall Mount: Ø19cm
