Foscarini Rituals Table Lamp

A collection of three diffuser shapes in hand-blown glass made using a glass-blowing procedure without turning the glass in the mould (referred to as "stationary"); the striped effect is achieved using a mould with negative decorations which are repeated across the surface of the glass, which is subsequently ground manually "by belt" and which then undergoes immersion in acid in order to emphasise the plaster-like effect.

The lamp is available in three similar shapes with diameters of 20cm, 24cm and 34 cm – all reminiscent of a beehive. The stained glass shade sits atop a three-legged brown metal stand. The light adds a soft ambience to any room and can be used in a lounge, living room or study to add both illumination and atmosphere.

The Foscarini [Rituals Collection](#) also includes ceiling lights, pendant lights, wall lamps and XL versions.
