PRODUCT DESCRIPTION

Designer: Jordi Vilardell

Vibia Suite 6035 Wall Light

Designed by Jordi Vilardell, the Vibia Suite 6035 Wall Light is a multifunctional lighting solution that also serves as a shelf. It represents an evolutionary step forward in what the designers term a 'soft' approach to nighttime lighting that is more discreet and affable. Utilising an LED light source that is fitted underneath the shelf, it casts an indirect glow, producing a warm and cosy accent illumination.

A true expression of modern minimalism, the Vibia Suite 6035 LED Wall Light is the most stripped-back in the collection, it is a highly functional product, this wall light is both elegant and practical, available in a sleek white finish that can adapt to almost any interior - classic or contemporary. Suite is a stunning addition to kitchens, dining rooms, living spaces, hallways and even in your bedroom to replace a bedside table.
