PRODUCT DESCRIPTION

Designer: Piero Lissoni

Light Bell LED Pendant Light by Flos

The Light Bell pendant designed by Piero Lissoni is a suspended general lighting source providing a low energy, high performance light output. The shapes of the reflector and opalescent diffuser have been carefully engineered to control the high output LED light engine and LED cooling is managed through the innovative pin and fin heat sink which discretely contains the integral driver.

The Light Bell pendant light can be adapted to any space with various colour finishes, and can be used individually or in multiple compositions. With its classic bell shaped shade, the Light Bell pendant lamp is suitable for both residential and commercial applications and is available in the following colour finishes; black/gold, black/copper, brown/gold, white/aluminium, polished aluminium/anodised aluminium and transparent.

Please note, the Light Bell pendant comes complete with a ceiling grey rosette and 4m. cable.
