PRODUCT DESCRIPTION

Designer: Enzo Catellani

Catellani & Smith Lucenera 502 LED Wall Light

The Lucenera 502 wall light by Catellani & Smith is a practical design with a stylish look. This wall light can be adjusted to not only the perfect lumen output but also to the perfect angle. This Catellani & Smith wall light puts a stylish twist on a functional task wall light. With the adjustable elements paired with the modern exterior, you no longer have to have dull and boring task lights for your desk, bedside, or reading space.

This Catellani & Smith wall light is available in two interesting materials that demonstrate how the designer and the brand think outside the box and aren't afraid of doing something different. The Lucenera 502 is available in either a black carbon fiber material or a white techno fiber material, both of which are highly lightweight and feature a stunning textured finish that creates a tactile effect.
