La Petite Floor by Artemide

Quaglio Simonelli, the designers, presented their reinterpretation of the classic floor lamp. The La Petite floor lamp has kept the archetypal shade, which gracefully balances on an aluminium stem. The stem itself is not symmetrical, but La Petite's design maintains a sophisticated order, where the lampshade counteracts for the asymmetry and brings harmony. The floor lamp by Artemide is comprised from different material, a choice to reflect the technological innovations used for the light itself. The lamp has two diffusers. providing both direct and indirect, glarefree light. La Petite collection also includes a <u>table lamp</u> and <u>wall</u> light, and are available in a choice of black or white finish.
