PRODUCT DESCRIPTION

Designer: Christian Ploderer

CPL T3 Table Lamp by Prandina

The CPL T3 table lamp is a lovely light that has a cylinder-shaped lampshade made from blown glass. The shade is held by a metal structure which is available with either a brushed nickel or chrome finish. You can choose between an opal white or clear crystal shade, with the opal white diffusing the light to create a warm glow and the clear crystal exposing the light source to produce a more contemporary, raw effect.

This table lamp has an opening in the top and the bottom so the light can have maximum effect. The CPL T3 table light can be used in a wide variety settings both at home or at work and looks best in bedrooms, lounges and reception areas. Match with other lights in the [Prandina CPL collection](#) to have a consistent lighting scheme and to create maximum impact in the room.
