PRODUCT DESCRIPTION

Designer: Héctor Serrano

Arturo Alvarez Ballet Elance

Made of stainless steel mesh, the Elance pendant was created after endless experimentation with stainless steel mesh. The light weighted shape and design is due to the superposition of the tips of the mesh giving the pendant a lightweight effect.

The asymmetry of its shape allows its forms to change depending of the point of view. A constant dance of light and shadows, the Ballet Elance pendant can be also combined with other Ballet pendants or you can purchase the [Ballet chandelier](#).
