Kartell Roy Side Table

Designed for Kartell by Alessandro Mendini, Italian an architect and designer. The concept behind the Roy is based on traditional Chinese stools; a barrel-shaped structure which enhances the weight support of the stool. The Roy is also decorated with a graphic pattern, a homage to Roy Lichtenstein, an American pop artist.

The Roy is a multi-functional and extremely versatile accessory, it can function as a side table, a stool, a stand and you can find it anywhere around your home, office, shop. While the small size means you can fit the Roy stool everywhere, can be moved around and easily stored. The stool is available in 5 colours: black, white, powder, blue and petroleum.

Material:
Engineering polymer in transparent or coloured thermoplastic mass.
