### PRODUCT DESCRIPTION

**Designer:** Arne Jacobsen

### AJ Floor Lamp by Louis Poulsen

The AJ floor lamp was originally made for the SAS Royal Hotel in Copenhagen in 1960 by Arne Jacobsen who designed everything from the building to the furniture and finishes inside. The AJ floor light is eye-catching yet subtle within its surroundings, emitting a downward directed light that is warm and inviting. The shade can be moved and swivelled, allowing the user to direct the light where needed, perfect for reading and tasks.

The AJ Floor Lamp is available in black, white and the original Petroleum Blue colour, in addition to five other colours options taken from colours Arne Jacobsen used in his watercolour paintings. Don't miss out on this piece of history as a functional and decorative light in your interior.
