PRODUCT DESCRIPTION

Designer: Aage Petersen

352 Table Lamp by Le Klint

Designed by Aage Petersen in 1970 for Le Klint, the 352 table lamp is a chic and timeless lamp with a delightful hand-crafted shade, made in the traditional style of Le Klint lampshades that have been a trademark of the lighting brand since its opening in 1943. Paired with a base and stand made with brass with both a black and brass finish this table lamp is refined and will add a touch of elegance to your room.

The 352 table light is also very functional as the height can be adjusted with a total height spanning from 62 to 88 cm. With a soft glow, the diffused light will create a nice atmosphere and will work best on desks or bedside tables to create a warm lighted space. Very versatile due to its classic design, this table lamp will look wonderful in both home and commercial interiors. To create a seamless design scheme, pair with the [351 floor lamp](#), which uses the same design on a bigger scale.
