PRODUCT DESCRIPTION

Designer: Boris Klimek

Brokis Memory Ceiling Light

The Brokis Memory Ceiling Light is a reminiscent design, aiming to take you back to the happiest moments of your childhood. Designed by Boris Klimek, this ceiling light resembles a floating balloon even down to the details of the hanging string which is utilised as an integrated on/off switch for the light. Memory is available in 3 sizes, various colours and a matt or glossy finish - offering you a vast number of options to configure your perfect lighting solution that defines your style. Even though the Memory looks stunning on its own, you can create your own cluster of Memory ceiling lights of different colours and sizes.

Brokis Memory is a playful creation, adding a touch of creativity to your space. This ceiling light is an exquisite addition to hallways, entryways, children's bedrooms and commercial lobbies. The Memory is now also available as a unique oval shape, released as a celebration of the light's 10-year anniversary.
