PRODUCT DESCRIPTION

Designer: Lucie Koldova

Brokis Capsula LED Pendant

The Brokis Capsula LED Pendant is a sophisticated and exhilarating design bearing a resemblance to a plant cell or seed. Capsula comprises three glass components, all housing a glass tube and using special Brokis connectors in metal end caps. The end caps hold the light together even once the cords have been removed. The nucleus of the piece is a tubular LED light source which shines through the outer glass. The Brokis Capsula is suspended from a ceiling canopy, which contains the electronics and ensures the design remains smooth and uncluttered.

The Brokis Capsula Pendant is one of the brand's most colourful designs, available in a huge array of glass finishes which can be combined to create beautiful installations in large commercial spaces. For residential environments, the Capsula reaches its full potential when suspended above dining tables, kitchen islands or in stairwells.

Dimmable options are also available, please [contact us](#) for more information and pricing.

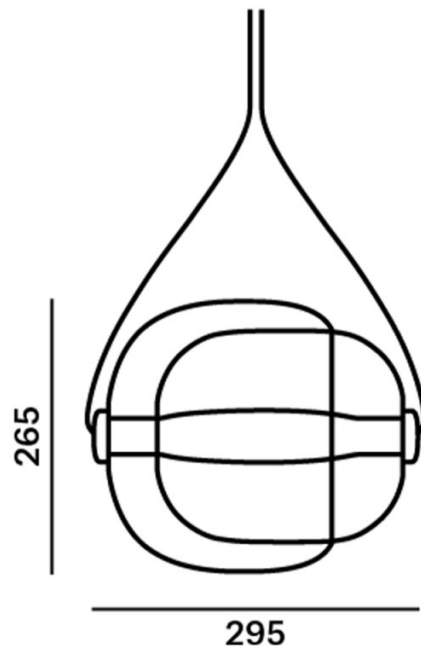

PRODUCT SPECIFICATION

Light Source: 8W, 2700K, 318 Lumens

IP Code: 20

Dimming: Non-dimmable.

Dimensions: Height: 26.5cm
