PRODUCT DESCRIPTION

Northern Snowball Floor Lamp

Snowball is a modern take on the classic Bauhaus lamp, revealing how the Futurist and Cubist styles of the Interwar period continue to appear contemporary today. The lamp's stem is anchored to a streamlined base comprised of rectangular shapes, rising upwards to hold a lampshade made from frosted glass at the top. The lampshade rests in a disc-shaped plinth, balancing the strict angles of the base with a perfect, round globe that emanates soft light.

Made in two versions, Snowball is available as a table lamp or floor lamp. The lamp's streamlined, minimalistic design complements a wide variety of interiors, with its strong geometric shapes adding a distinctively masculine element. A pair of Snowball table lamps can create a sense of balance, or unify a part of the interior as they 'book end' the space between them. The floor lamp adds elegance and a sense of scale, while providing a practical light source. Snowball's sleek design is timeless and sophisticated, and seems likely to continue to appeal for decades to come. Available in black and brass finishes.

PRODUCT SPECIFICATION

Light Source: 1 x Max 40W G9 (included)**IP Code:** 20**Dimming:** In line dimmer included on cable.**Dimensions:** Height: 117cm
Base: 15cm
Cable Length: 200cm
