PRODUCT DESCRIPTION

87 Series Single Pendant Light by Bocci

The 87.1 pendant is part of the spectacular [Bocci 87 Series](#), a range that showcases Bocci's wonderful innovations with glass in lighting design. The shade is made by putting soda water into a heated glass matrix to trap air which is then stretched and folded around pegs. The glass cools and creates this beautiful and intriguing shape that is eye-catching and mesmerising.

The 87.1 pendant lamp has a transparent/white finish with the light source sitting in the top of the lampshade. You can choose between a dimmable (Xenon 10W) or a non-dimmable (LED 1.5W) light bulb with them included in your purchase. This pendant light is perfect for many settings to provide an effective glow and a decorative element.
