PRODUCT DESCRIPTION

Designer: Johanna Forsberg

Heat by Northern

The designer, Johanna Forsberg, utilised brass mesh as the basis for the design of the Heat pendant. Forsberg created a glowing cloud of light, almost ethereal, floating mid air. Once turned off, the gleaming "fire" disappears and the Heat remains a decorative piece in any room. The designer experiments with contrasting materials in her work, and her dream was to create a large suspension light characterised by such contrasts. The Heat suspension in brass was such a success that the collection is now available in two sizes, large or small. There is also a new finish option in stainless Steel mesh. The steel pendant takes on a shimmering appearance when switched on and a hovering cloud when not in use.

Whichever size or colour you choose, the Heat pendant light remains a dynamic element in any interior space. You may also choose to install a single pendant or create a cluster of small and large, brass or steel clouds of light.

PRODUCT SPECIFICATION

Light Source: 1 x Max 100W E27 (excluded)

IP Code: 20

Dimming: Dimmable via mains phase dimming.

Dimensions: **Small**
Ø55cm
Shade Height: 30cm

Large
Ø80cm
Shade Height: 60cm

Ceiling Canopy: 12 x 6cm
Cable Length: 370cm
