PRODUCT DESCRIPTION

Designer: Jordi Canudas

Marset Dipping Light M LED table lamp

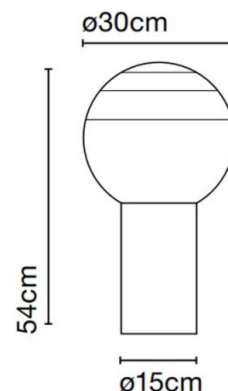

Marset Dipping Light is more than just a functional lamp, it's designer Jordi Canudas wanted to create something that would excite. When Dipping light is turned on, its different gradient tones of colour sift the light, creating a stunning ambient effect. When the lamp is not in use, its coloured glass sphere acts as beautiful eye-catching design piece for a shelf, bedside, or table.

The designer Jordi Canudas always seeks to be surprised by light and continues to experiment with it, he aims to capture the essence of light. Dipping Light came to fruition as one of these experiments – dipping a lit bulb into paint several times – with the end result inspiring this table lamp.

The base is available in brass and graphite with five coloured glass finishes to choose from.

Marset Dipping light medium is the perfect decorative piece for living rooms and social areas to create a welcoming ambience as well as a stylish feature.
