PRODUCT DESCRIPTION

Designer: Filippo Protasoni

Moonlight W1 LED Wall Lamp by Prandina

Prandina's Moonlight, designed by Filippo Protasoni, is an unassuming yet nonetheless decorative [wall lamp](#) whose minimalist, contemporary design belies the rigorous, age-old construction process required to create it.

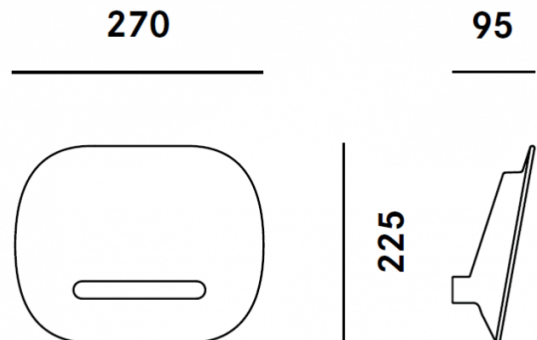

Moonlight consists of a single smooth ceramic plate – Bassanese ceramic from Prandina's home in Bassano del Grappa – which is developed around a central incision. This contrast emphasises both its light, delicate form and its relationship with the wall where it is installed, allowing it simultaneously to slip into the background and to draw attention.

Much like its namesake, the light produced by the Moonlight wall light is soft, indirect, and perfect for creating an intimate, night-time atmosphere. Unlike its namesake, this wall light is emitted by an [integrated LED](#) light source which is equally effective during the day, both for mood lighting and as part of a larger lighting scheme.

The Moonlight wall lamp is available in 1 colour, glazed white, or alternatively in a raw ceramic version which can be painted as desired. Motion sensor available upon request – please [contact us](#) for further details.

PRODUCT SPECIFICATION

Light Source: 8W, 3000K, 1440 lumens
IP Code: 20
Dimming: Dimmable via Trailing edge.
Dimensions: 27cm width
22.5cm height
9.5cm depth from wall
