PRODUCT DESCRIPTION

Designer: Louis Weisdorf

Gubi Multi-Lite Floor Lamp

Part of the wider [Multi-Lite collection](#) by Gubi, this iconic floor lamp is distinguished by its rotational shades, which allow for both downward or upward lighting or even an asymmetrical lighting effect. Originally designed by Louis Weisdorf in 1972, this lamp is a hark to the golden era in Danish Design, with its timeless curves and lines providing a fine example of Weisdorf's innovation and vision.

The shade is made from two quarter spheres that are rotated and held by the chrome or brass frame. With 6 finishes to choose from the Multi-Lite floor light is suitable in many domestic settings but features best in lounging areas, providing an atmospheric glow through a thoroughly elegant design.
